### Want to rate us

We put a lot of effort into our work to ensure that our customers are always satisfied. If the order does not meet Your expectations, please contact us before leaving a review. We always value every bit of feedback which can help us to improve our products. We always try to solve every problem for the benefit of our customers.

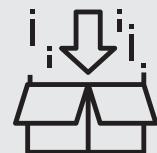

Highly rated reviews 

motivate us and draw a one big smile on our faces. ☺

After purchasing in our shop, We guarantee:

After-purchase assistance and warranty.

Solid packaging.

# CASSETTE ROLLER BLIND

## INSTALLATION MANUAL

### THE PACKAGE CONTAINS:

Cassette (1pcs.)  
Side guides (2pcs.)  
Bead lock (2pcs.)

## ATTENTION!

Before blind's installation, check if the package contains all the elements. If the package lacks any of the listed elements, please contact us.

1. Cassette.
2. Side Guides.
3. Bead lock.

### Step 1

Thoroughly clean the window frame. Make sure it is completely clean and non-greasy.

### Step 2

Unwind a few centimeters of the materials from the cassette. Remove the cassette cap. The safest way to do this is by bending it slightly to the side and then, lifting it up.

### Step 3

Peel off the double-sided tape (it is located on the cassette's back). Stick the cassette to the window's frame.

Make sure that each side of the cassette properly adheres to the window's glazing beads.

## ESSENTIAL TOOLS

Screwdriver, drill with a 2mm drill bit, towel and an anti-grease liquid.

### Step 4

The Cassette contains a set of mounting holes on the each side. With a set of screws, You can safely screw it to the wall. However, if You prefer a non-invasive way of cassette installation, You can just skip this step.

### Step 5

Peel off the double-sided tape, which is located on the back of each side guide. Stick them to the window's glazing beads. Start from the top, gently pushing them towards the cassette.

### Step 6

Put the sealing caps in to each side of the cassette. Press them towards the window's frame and then, push them towards the blind's cassette.

### Step 7

After installation, completely unwind the blind and place the bead lock on the each side of the cassette.

Roll up the blind and You are done!
