

## WHAT CAN I DO IF....?

### **My order is incomplete or damaged**

If the package lacks any components or carries any signs of damage – contact us. Our customer service will happily guide You through the complaint process.

### **There is no invoice in the package**

Your invoice can be found in the e-mail that You receive from us after the courier takes the package from our company. You will only need to click on the provided link and download the invoice in the PDF extension.

### **Want to rate us**

We put a lot of effort into our work to ensure that our customers are always satisfied. If the order does not meet Your expectations, please contact us before leaving a review. We always value every bit of feedback which can help us to improve our products. We always try to solve every problem for the benefit of our customers.

Highly rated reviews ★★★★★

motivate us and draw a one big smile on our faces. 😊

## PLEATED BLIND

After purchasing in our shop, We guarantee:

After-purchase assistance and warranty.

Solid packaging.

INSTALLATION INSTRUCTIONS  
NON-INVASIVE

### The package contains

A pleated blind, a non-invasive set of hooks (12 pcs) and two mounting grips.

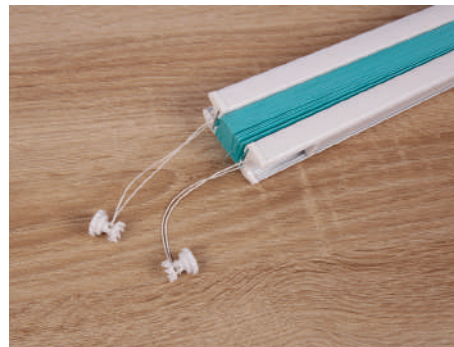

### ATTENTION!

Before blind's installation, check if the package contains all the elements. If the package lacks any of the listed elements, please contact us.

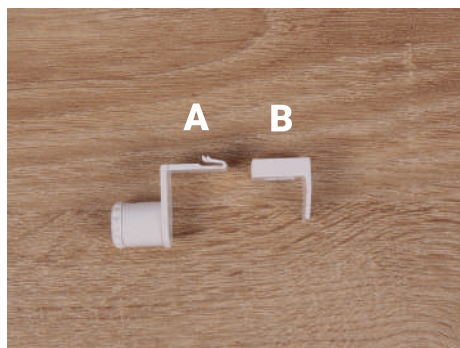

#### Step 1

Attach the mounting grips to the pleated blind. Now slide them onto the latches. Push them gently, until you hear a specific „click” sound.

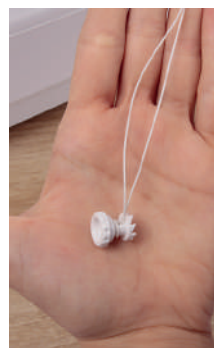

#### Step 4

There are two strings attached to each side of the blind and secured with a tape. Peel off the tape and gently unwind the strings. Do it slowly and try not to tangle them.

#### Step 2

Next on, combine the individual parts from the photo (A,B) into hooks. Do it slowly, do not press the separate parts too hard. The provided parts should be sufficient to create 4 separate hooks.

#### Step 5

Place the „gear” look-a-like element into the hangers. In order to keep the blind's strings tight, turn the „gear” right till you receive the desired outcome.

#### Step 3

Place the assembled hooks on the window frame. Put two of them at the top, and two at the bottom. Make sure that they hang straight against each other. Make sure that their grip is tight.

#### Step 6

Now unfold the blind. After checking it, fold the blind once again. Make sure that everything works fine. If it does, the blind is ready to use!
